

MAINE EMPLOYERS WANT YOU!

Supercharge your career with 8-week tech courses through the UNE Academy of Digital Sciences.

The UNE Academy of Digital Sciences is an innovative new online-offline certificate series that gives you accelerated instruction in the digital technology skills that are most in-demand by local employers.

- You will meet area employers who are looking for people with the skills you will be learning—at regular live events with virtual access.
- Our eight-week programs allow you to study on evenings or weekends.
- Professional mentors advise you through the completion of a final project and the assembly of a professional portfolio.
- A UNE Advisor will counsel you throughout your experience.

The next 8-week courses start on July 31st. Inquire through this form today and apply by July 19th to join us!

Designed with Major Maine Employers

Among the many Maine employers who have worked with us to design these programs to meet their needs:

- Cash Star
- Common Census
- Field Stack
- Fischer Design Group
- Freeport Metrics
- IDEXX Laboratories
- iVantage Health Analytics
- The Jackson Laboratory
- LL Bean
- Maine Data Lake
- Maine Health
- Pro Search
- State of Maine Office of Information Technology
- Tyler Technologies
- WEX

In Maine we know we have this talent just waiting for programs like this to help them reach their fullest potential - to be career ready.

- Jim Smith, Chief Information Officer, State of Maine

We're looking for people who are curious, who are problem solvers, and who are comfortable with creating and being a part of change.

- Ken Grady, Chief Information Officer, IDEXX

We are always looking for innovative people who think technically and strategically. In return, we provide an environment that challenges them and enables them to grow their skills.

- Angela Gaudreau, Vice President, Munis Development, Tyler Technologies

A Unique Approach to Cultivating Your Career

8-WEEK PROGRAMS

The perfect way to develop your talents to meet the exact needs of prominent area businesses within a concentrated timeframe. Work on your own schedule, evenings and weekends.

INNOVATIVE BLENDED MODEL

You'll receive world-class online instruction, while local professionals provide personal real-world mentoring through the completion of a work-ready project and portfolio.

MULTI-CHANNEL MENTORING

You'll collaborate with professional mentors and other learners through online discussions and live coaching sessions every week, either on the UNE Portland campus or virtually.
